*Celebration of Mind - The Mathematics, Magic and Mystery of
Martin Gardner*

Colm Mulcahy
Spelman College

Abstract: Martin Gardner (1914-2010) "brought more mathematics to more millions than anyone else," according to Elwyn R. Berlekamp, John H. Conway and Richard K. Guy. Who was this man, how was he so influential, and will his legacy matter in the 22nd century? We'll try to answer these questions. This event is part of a global celebration this month of the life of Martin Gardner.
